Macungie, Pa. 18062

Dear Ms. Lentz :

This letter is in support of Mike Murphy, who is attempting to secure financing to enable him to continue to support junior tennis in Berks County. I've known Mike for 4 or 5 years, and have seen first hand the passion and dedication that he has exhibited towards this end, in a variety of ways. He organizes and oversees several Berks County junior tournaments each year, and they have consistently run smoothly and been successful. Through the Set Point Team Tennis program local boys and girls have been able to consistently have an outlet for competitive tennis between high school tennis seasons. In addition to founding this program, Mike has overseen its growth, and been involved in every facet of its organization, from scheduling matches, arranging the strength of various teams to assure competitiveness, arranging for team shirts, as well as post match food, etc. The cost to local families for this has been very reasonable, and I believe most likely did not come close to covering the actual cost of the court time and food provided. Lastly, Mike has coached my two teenage sons, Kevin and Alex for the last two years, helping them to improve to the point that they were able to play regularly and contribute to a very strong Wyomissing HS team that has won the Pennsylvania State championship in 2009 and 2010. As a young man I played college tennis and ran several programs while putting myself through school. I've watched Mike work with my kids on numerous occasions and have found him to be an excellent technical coach, as well as a skillful motivator.

I strongly support Mikes attempt to secure additional financing so that Junior tennis in Berks County can continue to grow, and that other children can benefit from Mikes expertise the way that my boys have.

Sincerely,

Adam Altman, MD
