- **Letter of Commendation & Personal recommendation**

To whom it may concern,

I would like to offer this letter of commendation to Michael Murphy for his unrelenting and never ending desire to further aid the Berks County tennis community in their pursuit to promote tennis and children's youth programs. With Mike's help, we have "kick started" our USTA Quick Start program and the area's best effort to promote additional opportunities for under privileged children in our city and within Berks County.

Mike has enriched many of the lives of the people in our community with the founding of the Set Point Tennis organization. Set Point has further helped promote tennis instruction through clinics, private lessons and USTA Jr. Team tennis in our area, especially for those without the financial means to get actively involved with these programs.

On a personal note, I personally recommend Mr. Murphy for all future opportunities for potential growth of his organization & how he has given so graciously back to our community. Mike has also done a great job coaching my son, Ian who has had tournament successes at the sectional and district levels with impressive wins ! The sky is truly the limit for Mike !

All the very best!

Sincerely,

Charles L Goodwillie
