To whom it may concern,

I met Mike Murphy when my son Nicholas went to a tennis clinic. Nicholas knew little about the game of tennis. Mike saw potential in him and started giving him tennis lessons weekly. Mikes teaching techniques and rapport with Nicholas helped him advance very quickly in the game of tennis. With the help of Mike's lessons, Nicholas has progressed to playing matches in Set Point Tennis organization.

Set Point Tennis organization run by Mike Murphy is a great way for Nicholas and other Children in the community to get together and play tennis. This organization keeps them involved in tennis thru out the year and helps improve their skills in match playing. Mikes dedication to the children and passion for tennis shows with all the hard work and time he puts into making this a terrific program for them to participate in.

Mikes caringness also shows with the time he spends volunteering at the Police Athletic League. Mike gives his time to help children in the community learn tennis. His involvement goes beyond that by getting guest speakers to talk to the children about personal and community interest. Recent speakers include Dentist, Fire Marshal, District Attorney, Police Officer and Defense Attorney. Mikes efforts and dedication is an asset to our community.

Sincerely,

Christopher J Kosenske DMD
